**PAPER  
MONEY**

**PLASTIC  
CARD**

**ELECTRONIC  
MONEY**

**CRYPTO  
CURRENCY**

## WHAT IS CRYPTOCURRENCY

*Cryptocurrency is a digital payment system that doesn't rely on banks to verify transactions. It's a peer-to-peer system that can enable anyone anywhere to send and receive payments. Instead of being physical money carried around and exchanged in the real world, cryptocurrency payments exist purely as digital entries to an online database describing specific transactions. When you transfer cryptocurrency funds, the transactions are recorded in a public ledger. Cryptocurrency is stored in digital wallets*

# WHAT IS DECENTRALIZATION

What is decentralization? What are its benefits and advantages? Decentralized marketing is created on an automated contract that guarantees you maximum security and stability. A smart contract is an algorithm with automatic execution. It exists inside the Smart Chain block chain, which is one of the top crypto currencies. Smart contracts, like crypto currencies themselves, are decentralized. They work strictly according to a certain program, and once they are launched, it is impossible to change their mode of operation. The code that determines the logic of a smart contract is written in a block chain, and all calculations are performed by millions of computers around the world. This ensures that a smart contract cannot be hacked or stopped.

# BLOCKCHAIN TECHNOLOGY

*Blockchain technology is a structure that stores transactional records, also known as the block, of the public in several databases, known as the “chain,” in a network connected through peer-to peer nodes. Typically, this storage is referred to as a „digital ledger.“ Every transaction in this ledger is authorized by the digital signature of the owner, which authenticates the transaction and safeguards it from tampering. Hence, the information the digital ledger contains is highly secure..*

[tradegrowinlife.live](https://tradegrowinlife.live)

# WHAT IS SMART

# CONTRACT

Smart contracts are simply programs stored on a blockchain that run when predetermined conditions are met. They typically are used to automate the execution of an agreement so that all participants can be immediately certain of the outcome, without any intermediary's involvement or time loss.

# ABOUT TRADE GROWIN LIFE

TRADE GROWIN LIFE is a multi-industry company specialized in crypto trading, commodities and currencies market sector.

It aims to build the largest trading community in the world, developing and bringing services to the market of online trading.

For over 2 years, more than 400,000\* people have been achieving results with THE ASL tools and products.
